FOREST
FUND**

TREE DONATION

CERTIFICATE

**Dear Kohdent Kohlermedizintechnik GmbH
& Co. KG,**

**thank you very much for your donation!
It supports nature and climate protection.**

In Germany, each person currently generates an average of twelve tons of CO₂ per year. The German forest currently absorbs only about 12% of this.

By donating a tree, you are making a valuable contribution to environmental, climate and species protection, as well as to fulfilling the Paris Climate Agreement. After all, a tree binds an average of 3 tons of CO₂ over a period of 100 years. The Green Forest Fund plants and cares for the donated trees for you and, with your support, also acquires the area in Germany where these trees are allowed to grow undisturbed.

With your donation you create together with us tomorrow's forests.

Thank you very much for your contribution to making our planet a place worth living in the future and retaining it in all its beauty!

**YOUR TREE NUMBER:
28527-28536**
